

# ICON Agility Services Workshop Agile Release Train (ART) Flow Workshop

Are you positive your ART is at 100% efficiency and cannot deliver value faster?  
**If not, this workshop is for you.**

The fastest way to achieve the benefits of enhanced value flow acceleration with SAFe 6.0 guidance is with a workshop led by expert, SAFe SPCTs. Agile Release Trains (ARTs) are at the center of delivering continuous flow of value to your customers.

## Key Benefits

- ✓ Participants learn how to identify improvement areas
- ✓ Real ART Flow measurements: Predictability, Flow Time, and Flow Efficiency
- ✓ Review current state recommendations and flow acceleration opportunities

## Who Participates

- Lean-Agile & Agile Transformation Leaders
- LACE members, SPCs and Coaches
- PMO/VMO team members
- Release Train Engineers
- Product Managers
- Sr. Architects

## Measure, Understand, and Address:

- ✓ Reducing work-in-progress
- ✓ Identifying bottlenecks
- ✓ Minimizing queue length
- ✓ Increasing fast feedback loops
- ✓ Planning smaller batches of work
- ✓ Visualizing hand-offs and dependencies
- ✓ Optimizing time creating value
- ✓ Reduce the impact of legacy policy and procedures
