

AI-Empowered SAFe® Leading SAFe for Government

Lead lean-agile transformation and accelerate value with AI.

As agencies race to maintain mission relevance, leaders must become proficient in both the “operating system” of mission agility and the transformative potential of AI. This course provides the foundational knowledge to lead a Lean-Agile organization while integrating AI as a powerful work accelerant. You will learn to align complex agencies around clear goals, drive mission-centricity, and use specific AI prompting techniques to streamline your leadership responsibilities. By gaining proficiency in the intersection of SAFe and AI, you will empower your teams to deliver higher-quality solutions and accelerate time-to-field.

What You’ll Learn

Lean Agile Transformation

Lead Lean-Agile transformations within unique government constraints and adapt principles to public sector realities.

Align Strategic Objectives

Unify the entire organization around clear goals to improve mission value flow.

Establish Technical Agility

Structure cross-functional teams around mission value to enhance flow beyond functional silos.

Apply Practical, Responsible AI Prompting Techniques

Integrate responsible AI tools to streamline workflows and solve complex problems faster.
