Inspect and Adapt Workshop

Optimize the quality of your implementation through relentless improvement

The importance of the Inspect and Adapt (I&A) workshop cannot be understated. It enables every Agile Release Train (ART) to improve every Program Increment (PI).

Since each PI represents a significant economic investment from the organization, it's critical to assess the current state of the solution, which is demonstrated and evaluated by the ART teams during the I&A. During this one-day workshop you will be guided through the planning, preparation and execution of the Inspect and Adapt workshop.

Three main elements of the Inspect and Adapt workshop

In this hands-on workshop, your ART teams will be guided through a rigorous approach to problem–solving that will result in improvement actions for the next PI. This includes:

1. PI System Demo
2. PI Quantitative Assessment
3. Problem Solving Workshop

Who will Benefit?

- All members of the Agile Release Train (ART) including Agile teams, business Owners and stakeholders
- Release Train Engineers (RTEs) and Scrum Masters
- Certified SAFe® Program Consultants (SPCs) and other change agents

SCALED AGILE®
Provider of SAFe®

Prerequisites

- Participated in an Agile Release Train (ART) and finished a Program Increment (PI)

What you'll learn and accomplish

- A clear and aligned understanding of the state of the solution being developed, and the priorities for improvement going into the next PI Planning
- How to use Lean problem-solving tools, such as Root-Cause Analysis, Pareto Analysis, and the '5 Whys'
- Release Train Engineers (RTEs) and Scrum Masters will learn how to conduct a Program-Level retrospective to identify the issues for the problem-solving workshop.
- How to prepare for and conduct the PI System Demo and measure performance of the teams and ART

Scaled Agile Advisory Services

Provided by Scaled Agile, Inc. and the Scaled Agile Partner Network

Lean-Agile Center of Excellence Workshop
Drive enterprise adoption of Lean-Agile practices and business results

Value Stream Workshop
Organize for value

SAFe® ART Quickstart
Accelerate your SAFe transformation
