Leading SAFe® 6.0 with SA Certification

Thriving in the Digital Age with Business Agility

Leading SAFe® offers you an introduction to the foundations of SAFe, and provides the principles and practices to confidently drive your Lean-Agile transformation. The course and resulting certification offer the guidance and tools to build a culture of resiliency and a shared language that engages employees and focuses on customers so that organizations can work with agility at scale.

Take a Leading SAFe course to discover how companies can build business agility, and how to make SAFe work inside your organization. You'll come away with an understanding of how to align your entire organization around the same clear objectives, and how to improve the flow of value and work from strategy to delivery. You'll learn what makes companies more customer-centric and how to run key SAFe alignment and planning events, like PI planning.

Learning Objectives

How to realize the benefits of SAFe, including:

- Become a Lean-Agile leader, and lead the transformation to business agility with SAFe
- Establish Team and Technical Agility and organize around the flow of value
- Align massive organizations around clear, common objectives
- Participate successfully in critical SAFe events, such as PI Planning
- Adopt a customer-centric mindset, enabling Design Thinking and Lean-Agile Product Delivery

Who will benefit?

The following individuals will benefit from this course:

- Executives and Leaders, Managers, Directors, CIOs, and VPs
- Development, QA, and Infrastructure Management
- Program and Project Managers
- Product and Product Line Management
- Portfolio Managers, PMO, and Process Leads
- Enterprise, System, and Solution Architects

Leading SAFe® answers the questions

- What is SAFe?
- What is business agility and how does SAFe support it?
- How does an organization get started with the Scaled Agile Framework®?

Leading SAFe 6.0 Course Outline

- Lesson 1: Thriving in the Digital Age with Business Agility
- Lesson 2: Building a Foundation with Mindset, Values, and Principles
- Lesson 3: Establishing Team and Technical Agility
