

# SAFe® 6.0 for Teams with SP Certification

---

## Establishing Team Agility for Agile Release Trains

What does it mean to be part of an Agile team on an Agile Release Train (ART) that delivers value to customers? SAFe® for Teams covers the tactical skills to be a high-performing member of an ART. The course also gives you the guidance and tools to work effectively in remote environments with distributed teams. Get the most out of your learning experience by taking it in context with your team and other teams on your ART.

SAFe for Teams will teach you all about your role on an Agile team and how your team works with others as part of an ART. You'll learn how to plan and execute work, how to apply Scaled Agile Framework® and Agile principles, and how to continuously improve. Taking the Scaled Agile Framework® for Teams with your team will empower all of you with the collective knowledge to collaborate effectively, do the best possible work, and hit the ground running before your next planning event.

### Learning Objectives:

- Enable consistent understanding of roles on the team, and team's roles on an ART
- How to apply SAFe principles to scale Lean-Agile delivery
- Begin to plan and execute in iterations and PIs
- Continuously improve the ART

### Audience

Team members who apply Lean and Agile at scale and all members of an ART, who are preparing for PI Planning and/or ART Launches, will benefit from this course.

### SAFe® for Teams answers the questions:

- How does an Agile team function inside of an ART?
- How do we as an Agile team plan and execute iterations and the PI?
- How do we work with other teams on the ART to effectively deliver value?

### SAFe For Teams Course Outline

- Lesson 1: Introducing the Scaled Agile Framework (SAFe)
- Lesson 2: Form Agile Teams as an Agile Release Train
- Lesson 3: Connect to the Customer
- Lesson 4: Plan the Work
- Lesson 5: Deliver Value
- Lesson 6: Get Feedback
- Lesson 7: Improve Relentlessly
- Lesson 8: Practicing SAFe

## Pre-requisites

All are welcome to attend, regardless of experience. However, it is highly recommended that those who intend to take the SAFe® Practitioner (SP) certification exam have; familiarity with Lean and Agile concepts and principles, awareness or experience with agile best practices, like Scrum, Kanban, and XP, and/or working knowledge of software, hardware, and/or product development processes.

## Attendees Receive:

- Course workbook and SAFe Studio access to help prepare you to take the certification exam, claim their digital badge, and tools to get started in your SAFe role
- Remote learning via SAFe Virtual Classrooms
- One-year membership to SAFe® Studio with your first class attendance
- Platform access to e-learning modules and curated members-only content to support your SAFe transformation
- Member discussion forms to engage in ongoing conversations on the SAFe framework or how to better perform as part of an Agile Team
- Curated content-playlists based on your interests and roles, including templated resources and facilitation guides to get you started
- Access to content, tools, and resources you need to practice SAFe every day
- SAFe® 6.0 Practitioner certification exam

## Professional Development Units (PDUs) & Scrum Education Units (SEUs)

Attendees may be eligible to apply for PDUs and/or SEUs. Please refer to the following, for more details:
