

# SAFe® 6 Product Owner/Product Manager with POPM Certification

---

## Delivering Value through Effective Planning Interval Execution

What skills do you need to deliver value in an Agile enterprise? The SAFe® Product Owner & SAFe® Product Manager (POPM) course covers the tactical responsibilities of these roles in the Agile Release Train (ART). The course and resulting certification give you the guidance and tools to work effectively in remote environments with distributed teams.

Learn how product owners and product managers should work together to achieve the best possible customer and business outcomes. The SAFe POPM course will teach you how to adopt a customer-centric approach to building products, using the Scaled Agile Framework® to deliver more value, faster. Topics covered in this course include the daily role of POs and PMs; collaborating with engineering teams and business stakeholders; how to write epics, features, and stories; and how to design, prioritize, build, test, and deliver products with increased productivity and higher quality.

### Learning Objectives

- Perform the role of a PO and a PM on a daily basis
- Put the customer at the center of your design, build, and test process
- Prepare for and lead PI Planning
- Decompose Epics to Features and Features to Stories
- Collaborate with Agile teams to forecast work

### Who will benefit?

The following individuals will benefit from this course:

- Product Owners, Product Managers, Product Line Managers, Business Owners, and Business Analysts
- Solution Managers, Portfolio Managers, Program Managers, and members of the LACE
- Enterprise, Solution, and System Architects

### SAFe® POPM answers the questions:

- How do POs and PMs plan and execute work during a PI?
- How do I integrate a customer-centric mindset to deliver products customers want?
- How do you connect SAFe Lean-Agile principles and values to the PO/PM roles?

## SAFe 6.0 POPM Course Outline

- Lesson 1: Exploring Product Owner/Product Management Roles and Responsibilities
- Lesson 2: Preparing for PI Planning
- Lesson 3: Leading PI Planning
- Lesson 4: Executing Iterations
- Lesson 5: Executing the PI
- Lesson 6: Practicing SAFe®

## What Attendees Receive

- Course workbook and SAFe Studio access to help you prepare to take the certification exam, claim your digital badge, and tools to get started in your SAFe role
- Remote learning via SAFe® Virtual Classrooms
- One-year membership to SAFe Studio with your first class attendance
  - Product Management Video playlist and customer research tools to support product owners in their role
  - Platform access to e-learning modules and curated members-only content to support your SAFe transformation
  - Member discussion forms to engage in ongoing conversations on the SAFe framework or how to better perform as part of an Agile Team
  - Curated content-playlists based on your interests and roles, including templated resources and facilitation guides to get you started
- Access to content, tools, and resources you need to practice SAFe every day
- SAFe Product Owner/Product Manager certification exam

## Prerequisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® 6 Product Owner/Product Manager (POPM) certification exam:

- Attend a Leading SAFe course
- Experience working in a SAFe environment
- Experience with Lean, Agile, or other relevant certifications

## SAFe Certification Kit

Attendees who pass the certification exam will receive:

- Certified SAFe® 6 Product Owner/Product Manager PDF certificate
- A SAFe® 6 Product Owner/Product Manager digital badge to promote your accomplishment online
- A one-year certified membership to the SAFe Community Platform, which includes access to the POPM Community of Practice
- Access to Meetup Groups and events that connect you with other Certified SAFe Professionals
- A variety of learning resources to support you during your SAFe journey
