SAFe® Executive Overview

*"People are already doing their best; the problems are with the system.
Only management can change the system."*

—W Edwards Deming

To have a successful Business Agility transformation, executive stakeholders must align on the organizational problems to be solved. ICON helps you develop your understanding of what it means to be a Lean-Agile leader in a growing enterprise, assess where you are in your transformation journey, and guide you on the next steps to better understanding the Scaled Agile Framework® (SAFe).

Topics Covered

During this session, we will work through a set of workshop slides and exercises to cover:

- Current challenges faced by executives and leaders
- The 7 core competencies of a Lean-Agile Enterprise
- Current symptoms you are experiencing
- Next steps using SAFe

Learning Goals

By the end of the session you will:

- Understand the essence of Business Agility and how SAFe helps organizations embrace it
- Understand SAFe's recommendations for starting and managing work:
    - Prioritize
    - Use capacity allocation
    - Embrace transparency and objective measures
    - Adjust based on results
- Start to explore how these ideas may benefit your organization
