

## AgilityHealth® Facilitator Certification

---

This certification workshop prepares participants to facilitate and deliver TeamHealth Retrospective Assessments and certifies them to be AgilityHealth® Facilitators.

### Who will benefit?

Attendees typically include:

- Agile Coaches
- Sr. Scrum Masters
- Managers
- Other team leaders who want to improve the health and performance of their teams.

### Learning Objectives

- Know the purpose, agenda and deliverables of a TeamHealth Retrospective Assessment.
- Understand the 5 TeamHealth dimensions, questions asked for each and know how to articulate them to workshop attendees.
- Have the ability to walk through a detailed Demo of the AgilityHealth® assessment tool and gain the confidence in providing this demo/walk-through to organization leaders and teams.
- Have participated in a simulation of the TeamHealth Retrospective assessment facilitated by our experts.
- Have practiced facilitating the TeamHealth retrospective introduction and dimension review with a smaller sub-team.
- Learn the top Dos and Don'ts when facilitating this session and lessons learned from our expert facilitators.

### Pre-requisites:

- At least 1 year of experience working on Agile Teams

### Upon Completion of the Certification:

- You will receive an official 'AgilityHealth® Facilitator' (AHF) Certificate and may display the logo and abbreviation in your title.
- You will have access to deliver one FREE TeamHealth assessment and continue to deliver the assessments with paid subscriptions.
- You will receive valuable course materials, TeamHealth radar and flashcards.
- You'll be invited to the private AgilityHealth® Facilitator LinkedIn Group to collaborate with others in the certified community.
