

Leading SAFe® with SA Certification

***Thriving in the digital age with business
agility with SAFe® 5 Agilist (SA) Certification
Based on version 5.1 of SAFe***

Gain the insights you need to lead a Lean-Agile enterprise using SAFe and its underlying principles—and help your organization master business agility to thrive in competitive markets.

In this two-day course, you'll learn how to establish team and technical agility to organize and reorganize around the flow of value. Practice the skills to support and execute PI Planning events. Explore why it's critical to adopt a customer-centric mindset and Design-Thinking approach to Agile Product Delivery. Discover how to better align strategy and execution by successfully implementing Lean portfolio management within your enterprise.
