

SAFe® Agile Product Management with APM Certification

***Using Design Thinking to create valuable products in the Lean Enterprise
With SAFe® 5 Agile Product Manager Certification
Based on version 5.0 of SAFe***

The Agile Product Management course harnesses the power of Design Thinking to develop innovative solutions with proven SAFe capabilities to execute on those visions. Learn the right mindset, skills, and tools to create successful products – from inception to retirement – using Agile techniques.

Recognize how Continuous Exploration fuels innovation and helps you define a vision, strategy, and roadmap to tap into new markets. Find out how to accelerate the product lifecycle to get fast feedback and quickly deliver exceptional products and solutions that delight customers – all while aligning with your organization’s strategy, portfolio, evolving architecture, and solution intent.
