

SAFe® Scrum Master

***Applying the Scrum Master role within a Scaled Agile Framework (SAFe) Enterprise
With SAFe® 4 Scrum Master Certification
Based on version 4.6 of SAFe***

In this two-day course, attendees will gain an understanding of the role of a Scrum Master in a SAFe enterprise. Unlike traditional Scrum Master training that focuses on the fundamentals of team-level Scrum, the SAFe Scrum Master course explores the role of the Scrum Master in the context of the entire enterprise, and prepares attendees to successfully plan and execute the Program Increment (PI), the primary enabler of alignment throughout all levels of a SAFe organization. This includes learning the key components of Agile at scale development, how Scrum is facilitated throughout the enterprise, and how to execute Iteration Planning.

Attendees will also discover how to build high performing Agile teams by becoming a servant leader and coach, and how to coach those teams to deliver the maximum business value at scale. SAFe 4 Scrum Master (SSM) certification signifies that people are prepared to perform the role of Scrum Master in a SAFe environment, increasing their value to teams and organizations that are implementing SAFe.

Learning Goals

To perform the role of a SAFe® Scrum Master, attendees should be able to:

- Describe Scrum in a SAFe enterprise
- Facilitate Scrum events
- Facilitate effective Iteration execution
- Support effective Program Increment execution
- Support relentless improvement
- Coach Agile teams for maximum business results
- Support DevOps implementation

Topics Covered

- Introducing Scrum in SAFe
- Characterizing the role of the Scrum Master
- Experiencing Program Increment planning
- Facilitating Iteration execution
- Finishing the Program Increment
- Coaching the Agile team

What Attendees Get

The class registration includes:

- Printed workbook
- Preparation and eligibility to take the SAFe® 4 Scrum Master (SSM) exam
- One-year membership to the SAFe Community Platform
- Course certificate of completion

Attendees must attend both days of the course in order to qualify for the exam.

Audience

The following individuals will benefit from this course:

- New Scrum Masters who need to perform the role
- Existing Scrum Masters who would like to understand their role in the context of a SAFe enterprise
- Team Leads who want to understand the Scrum Master role
- SAFe Release Train Engineers who want to coach Scrum Masters on their role

Prerequisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® Scrum Master (SSM) certification exam:

- Familiarity with Agile concepts and principles
- Awareness of Scrum, Kanban, and eXtreme Programming (XP)
- Working knowledge of software and hardware development processes

SAFe Certification Kit

Attendees who pass the certification exam will receive:

- SAFe Scrum Master certificate
- A SAFe 4 Scrum Master digital badge to promote your accomplishment online
- A one-year certified membership as a SAFe Scrum Master, which includes access to the SSM Community of Practice
- A SAFe Scrum Master certification usage guide with SSM certification marks
- Access to a variety of learning resources to support certified professionals during their SAFe journey
