

Leading SAFe® with SA Certification (Virtual)

***Thriving in the digital age with business agility
with SAFe® 5 Agilist (SA) Certification
Based on version 5.0 of SAFe***

ICON is excited to offer the traditional, two-day SAFe courses over 4 days in half day segments. These courses will be taught by expert SAFe instructors in a live, virtual environment. Please email iconsalesteam@iconagility.com for multi-student discounts by providing the course name and dates you want to attend.

During this course, attendees gain the knowledge necessary to lead a Lean-Agile enterprise by using the Scaled Agile Framework (SAFe) and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps.

Participants in the class gain insights into mastering business agility to thrive in competitive markets. They discuss how to establish team and technical agility and organize and re-organize around the flow of value. Attendees also learn and practice the skills to support and execute PI Planning events and coordinate multiple Agile Release Trains (ARTs). Class participants will explore the importance of adopting a customer-centric mindset and Design-Thinking approach to Agile Product Delivery. Learners will also understand how to implement a Lean Portfolio Management function within their enterprise.

Audience:

The following individuals will benefit from this course:

- Executives and Leaders, Managers, Directors, CIOs, and VPs
- Development, QA, and Infrastructure Management
- Program and Project Managers
- Product and Product Line Management
- Portfolio Managers, PMO, and Process Leads
- Enterprise, System, and Solution Architects

Learning Objectives

To perform the role of a SAFe® 5 Agilist, attendees should be able to:

- Lead the transformation to business agility with SAFe
- Become a Lean-Agile leader
- Understand customer needs with Design Thinking
- Enable Agile Product Delivery
- Implement Lean Portfolio Management

Topics Covered

- Thrive in the digital age with business agility
- Become a Lean-Agile Leader
- Establish Team and Technical Agility

- Build Solutions with Agile Product Delivery
- Exploring Lean Portfolio Management
- Lead the change
- Become a Certified SAFe® 5 Agilist

Pre-requisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe® 5 Agilist (SA) certification exam:

- 5+ years' experience in software development, testing, business analysis, product, or project management
- Experience in Scrum

Duration

4 Half Days

What You Get

The class registration includes:

- Attendee workbook
- Preparation and eligibility to take the SAFe® 5 Agilist exam
- One-year membership to the SAFe Community Platform
- Course certificate of completion

Attendees must attend both days of the course to be eligible for the exam.
